OMMUTATION OF QUIT RENTS. — PINANCE DRpartness, New York City, March 7, 1833.—It is provided
by sestion 5, title 4, of the ordinance respecting the Sinking
Fund, that "whenever any person or persons may desire to
commute any quit rent due the corporation, it skall be the
duty of the Comptroller to calculate such commutation at the
rate of six per cent, and upon the production of evidence
that the same and all arrears of rent have been paid into the
treasury, it shall be the duty of the Mayer and Clerk to execute a release of such quit rent." There are daily applications for commuting on single lots, where the quit
rent was reserved on a larger tract by persons who
desire to sell and give a title free from incumbrance;
and the rule of the office, as I learn, has been not
to commute unless all the owners of the original parcel
jein in the commutation. The counsel to the corporation
has given an opinion that there is no legal objection to a
soparate commutation, unless there has been some special arrangement between the former owners as to the payment of
the quit rent. I have determined, therefore, to commute
according to the provisions of the above ordinance, on receiving satisfactory evidence that the amount to be paid for
the release is not less than the amount charged on the
portion of land to be galeased by any prior arrangement be-

the area of a control of the shown named assessments, and the bare appeared to the shown and the bare appeared to be shown and the present their objections in writing to the undersigned, at their office. No. 4 Hall of Records, within thirty days from the date of this notice.

WHIST" LINE FOR AUSTRALIA (OR NEAREST V portettainable.) Passengers for Australia, are credibly informed that the proprietors of this line are extensively engaged in "craft" of every description; and who, by their above board "dealings" have invariably received more "honors" than their competitors. They fully rely upon the publicity already given through the medium of the press, for a major; share of public patronage. They pledge their "honors!!!" That a first rate "table" (a self expanding body) will be kept, at which one of the proprietors will superintend the "shuffling" until the passengers are ready to "cut." For the number of "tricks" played in the ships which have sailed, parties are respectfully referred to the English and American Consuls at Ro Jansiro; who have received minute details from those passengers who have "shared" is a "comfortable round." For the "wherabouts" of the ship, apply to our runners, whose liberal wages insure honest information, but for payment of passenger on a supply of "extra stores" apply personally at the office.

WILL BE FUBLISHED ON THE 19TH OF MARCH—W Graham's American Monthly Magazine. April, 1853. Vol. XLII. No. 4. The April number of Graham is the second of the new series, enlarged to 144 pages, and it is certainly the very best number that we have ever furnished to our readers. The articles are mainly original, and from approved sources. The illustrations by Devereux challenge admiration, and a comparison with those which appear in any other American periodical will satisfy our vast army of readers of the superior beauty of these delightful sketches. Mr. Read's novel opens charmingly, and illustrated as it is, is certainly the most attractive paper of the number. The article upon Whipple is discriminating and just, and as he has long been one of the favorites of Graham's readers, will be especially welcome. Many of the other papers are of very superior morit.

Graham's Magazine, since ite enlargement, contains more reading matter than any other, as its printed page is larger, and it shall be our care that the quality shall be of the best; for, in splut of the foolish bluster in some quarters, we intend to maintain for Graham the front rank in merit.
